Business 28  
Construction Update

Dear Property Owners:

We are pleased to report that construction in the area of the Montclair Blvd intersection is proceeding ahead of schedule. Montclair Blvd will re-open two weeks earlier than scheduled on Friday, May 25<sup>th</sup>. This will complete the major pieces of reconstruction of the north half of Business 28. Two-way traffic will be switched to this new pavement on the north side of the roadway as crews begin the last major phase of reconstruction along the south side of Business 28 between Cinema Drive and SR 28.

In order to accommodate this shift of traffic from the south side to the north side, **Business 28 will be open to one-way EASTBOUND traffic only on May 29<sup>th</sup> from 6am until midnight between Montclair Blvd and Cinema Drive.** This one day restriction is necessary to allow the contractor to connect the driveways on the south side of Business 28 to the new lower pavement level on the north side, prior to opening to two-way traffic on this new pavement. Westbound traffic will be detoured along Cinema Drive to Montclair Blvd. Two-way traffic will resume on Business 28 on May 30<sup>th</sup>.

It is our intent to continue to keep area businesses, residents, and the traveling public up to date during the various construction phases of this project. Future announcements will be made via signage along Business 28, through news releases to the media, and notices as well as additional information will always be available on the TID website at [www.tid.clermontcountyohio.gov](http://www.tid.clermontcountyohio.gov).

Our project inspector, Shane Garr, continues to be on site each day to monitor the contractor's activities and to help coordinate various aspects of the project. You may direct any questions to Shane Garr at 513-479-2562 or to our traffic engineer, Jeremy Evans, at 513-732-8878.

We thank you again for your continued cooperation.

Sincerely,

Patrick J. Manger, P.E., P.S.  
Clermont County Engineer
